FAQs

What is NursingCAS?

Nursing's Centralized Application Service (NursingCAS) is an online application platform designed to simplify the admissions process by enabling students to apply to multiple programs with a single electronic application.

NursingCAS is a service of the American Association of Colleges of Nursing (AACN) that allows students to discover and apply to LPN/LVN, Associates, Bachelor's, Master's, Doctoral, Non-Degree Nursing, and Certificate programs offered by participating nursing schools.

How can NursingCAS help you?

NursingCAS simplifies the process of applying to nursing programs.

Applicants are able to **complete one application**, review and select programs of interest, submit any additional supporting materials (e.g., references, personal statements) and information required by selected programs, and submit with ease.

The platform allows applicants to review thousands of nursing programs and filter by state, degree type/level, track, and delivery method to explore which best suit their needs – without navigating through multiple websites and creating different accounts

How much does NursingCAS cost?

The cost of application depends on the number of programs to which an applicant applies, as well as the degree type/level.

- **Undergraduate Programs**

- **2025-2026 Cycle:** \$65 for the first program and \$50 for each additional program
- **2026-2027 Cycle:** \$70 for the first program and \$55 for each additional program

- **Graduate Programs**

- **2025-2026 Cycle:** \$85 for the first program and \$55 for each additional program
- **2026-2027 Cycle:** \$90 for the first program and \$60 for each additional program

Schools may also charge a separate school-specific application fee.

AACN offers a limited number of fee waivers to eligible applicants on a first-come, first-served basis, which covers the initial application fee.
