

NursingCAS™, the Centralized Application Service for undergraduate and graduate nursing programs across the country, provides admissions offices with an improved way to recruit, enroll and admit best-fit students.

Participating institutions report that they are able to process applications more efficiently and effectively, while also expanding their marketing to reach new applicant pools. There is no cost to join NursingCAS; all training, software and support are free to school users/staff.

## BENEFITS TO PARTICIPATING SCHOOLS

Facilitates faster and more effective processing of applications

Provides access to strategic admissions data, on-demand customizable reports, and comparative data

Offers a customizable application that can include program-specific admissions requirements

Extends your staff with a dedicated support team that processes and verifies transcripts and other documents

Enables schools to market program offerings and open seats, offering additional exposure through a centralized portal

## NURSINGCAS QUICK FACTS

NursingCAS charges the following processing fees to applicants:

### Undergraduate Programs

\$70 for the first undergraduate-level program and \$55 for each additional program

### Graduate Programs

\$90 for the first graduate-level program and \$60 for each additional program

**280+**

participating AACN member schools across

**45+ states**

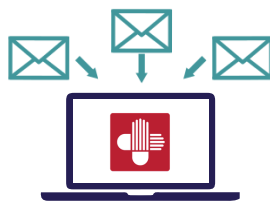

To see a full list of member schools, visit [nursingcas.org](https://nursingcas.org)

## BENEFITS TO APPLICANTS

Streamlines the research of hundreds of nursing programs, allowing applicants to find the most suitable options

Simplifies the organization of application materials in one convenient location

Provides access to the NursingCAS service team, which is dedicated to responding to applicant phone calls, emails, and chat messages

## HERE'S WHAT SOME OF OUR MEMBERS ARE SAYING ABOUT NURSINGCAS:

“NursingCAS has developed a user-friendly platform that enables Edgewood University to create new programs and launch new application cycles with ease. This streamlined system enhances efficiency in managing admissions, allowing the college to adapt quickly to evolving educational needs.

*- Edgewood University*

“NursingCAS has streamlined our admissions process by centralizing application materials, reducing administrative burden, and improving efficiency in our application review process. It has also enhanced our ability to track applicant data and identify enrollment trends, allowing for more informed, data-driven decision-making.

*- Samuel Merritt University*

“NursingCAS has made it easier to quickly communicate with students about the status of their application and materials. It has also made the GPA calculation and prerequisite review process much easier. This has helped to keep up with the demands of managing admissions for multiple programs.

*- Towson University*

“NursingCAS has helped our school bring greater visibility to the application process, making it more accessible and streamlined for prospective students. As a result, we have seen an increase in applications and overall enrollment.

*- Morgan State University*
