Elevating the Applicant Experience

The centralized sections contain questions and collect information common among participating programs.

Schools can collect additional information unique to each program, which is displayed in the Program Materials section.

What can be customized?

- » For each program a school posts on NursingCAS, the design of its program home page and application can be configured several ways:
 - » Brand your page with an image and color scheme
 - » Add instructional text to guide applicants
 - » Enter specific questions applicants to your program must answer
 - » Identify documents applicants must submit to your program
 - » Configure prerequisite courses so applicants can self-identify which of their coursework matches your prerequisites
 - » Set transcript requirements (official, unofficial, none)
 - » Set coursework entry requirements (full coursework data, prerequisites only, no coursework data)

The Direct Entry Master's (MSN) for Non-Nurses: Generalist Entry Master's (GEM) Clinical Nurse Leader (CNL) program at Rush University College of Nursing comprehensively prepares students, in a two-year full-time curriculum, to be a graduate (MSN) registered nurse (RN) clinician with a focus in clinical leadership. Graduates are prepared to function at a high level in inpatient, out-patient, and community settings. This program is for students who already have a bachelor's degree in an area other than nursing.
